

Exam Success for Graham students – Press Statement by Headteacher

'We are proud of these achievements and the positive way our students have responded to the increased opportunities and support over the last 5 years. The students have continued Graham School's great tradition of sustained improvement and success over the last 20 years. This was a great reward for the teamwork and commitment in the School and the sheer hard work and talents of students and staff plus the excellent support of Parents and Governors. He thanked everyone for their support and congratulated the students on their successes. The table of GCSE and Vocational qualifications below demonstrates the wide range of subjects and opportunities available to our students.

Graham School

Year 11 Summary of Examination Results 2011
